Professional Summary

Detail-oriented analyst with 4+ years of experience spanning business analysis, data analytics, reporting, and business systems support across nonprofit, transportation, and manufacturing environments. Skilled in SQL, Power BI, and Advanced Excel for building dashboards, automating reporting, and translating operational and financial data into actionable insights. Proven track record in requirements gathering, root cause analysis, and process improvement, with certifications in SQL, Power BI, SAP ERP Fundamentals, and Business Analysis.

Professional Experience

Business Data Analyst: Reporting & Systems Analysis

Mar 2026 to Present

Community Dreams Foundation (Remote, Full-Time)

- **Gathered and documented business requirements** through stakeholder interviews, translating operational needs into reporting solutions.
- **Built SQL-driven data pipelines and Power BI dashboards** tracking 10+ KPIs, automating recurring reports and improving data accuracy.
- **Developed process documentation and SOPs** that reduced manual processing time by 40% and leadership reporting time by 30%.

Business Analyst: Data, Reporting & Financial Analysis

Jan 2022 to Dec 2023

Hail Cabs, Hyderabad, India

- **Identified and resolved data discrepancies** across payment, commission, and vehicle-related cost data, resolving 95% of issues within 48 hours through root cause analysis.
- **Analyzed pricing, revenue, and vendor cost data** using SQL, Excel, and Power BI, comparing performance against competitors including Uber, Ola, and Rapido.
- **Built and automated Excel-based reporting** using Pivot Tables, Power Query, Power Pivot, and macros, and partnered with Procurement and Logistics on vehicle acquisition and fleet allocation, reducing operational exceptions by 20% and improving on-time performance by 15%.

Business Operations Analyst

Jul 2019 to Dec 2021

Laxmi Precast Allied Products, India

- **Analyzed production, inventory, procurement, dispatch, and sales data** to support business operations, using Excel (Pivot Tables, lookups, dashboards, trend analysis) and SQL for querying operational data.
- **Built Power BI dashboards** to monitor KPIs and visualize business performance for management review.
- **Collaborated with production, procurement, logistics, and management teams** to identify operational bottlenecks and improve reporting, preparing management reports and validating business data weekly.

Projects

Business Data Pipeline & Analytics Dashboard: EV Taxi Analytics [GitHub](#)

- **Built an end-to-end Python data pipeline** with ETL, data profiling, and predictive modeling to analyze operational and financial trends.
- **Developed interactive dashboards** presenting KPI trends and performance insights to stakeholders.

Tech: Python, Pandas, Scikit-learn, SQL, MySQL, SQLAlchemy, Streamlit, Plotly, Power BI

Business Systems & Financial Reporting Platform: Cleveland Auto DMS [GitHub](#)

- **Built a full-stack system** with 6 REST API endpoints, analyzing pricing, revenue, inventory valuation, and sales performance via a real-time dashboard.

Tech: React, Node.js, Express.js, MySQL, Recharts, Git/GitHub

Education

M.S., Management Information Systems, Cleveland State University, Cleveland, OH

Dec 2025

B.S., Information Technology, VNR Vignana Jyothi Institute of Engineering and Technology, India
